# **S.S.S.** CURES OLD SORES

Whenever a sore or ulcer becomes chronic it is because of bad blood; the healing qualities of the circulation have been weakened by

We all realize that the circulation is the great source of nourishment for all flesh dissues; thus we readily understand why impurities or poisons in this vital fluid will infect and disease the flesh at some particular spot, and by continually discharging impurities into it, keep the place open, raw and inflamed.

Every symptom of an old sore suggests diseased blood. The inflammation, discharge, discolored flesh, and the fact that external applications have no permanent effect toward healing the ulcer show that deep down in the system there is a morbid cause for the sore. But more convincing proof that bad blood is responsible for these places is furnished by the fact that even removing a sore or ulcer by surgical operation does not cure; they always return.

No sore can heal where the blood is impure; no matter how much attention is devoted to the dressing of it with salves, washes, lotions, etc., the impurit es on which it thrives are being continually deposited into it by the burdened circulation. Cleanse the blood and the sore will heal of its own accord, because then its very source and foundation sultor He had kissed her and that will have been destroyed, and the plasmic qualities of the circulation was all. ### The Situation in New York.

An Associated Piess dispatch says the Republican managers in New York are worried over the political outlook, and have appealed to President Taft for help. Roosevelt and the President are to meet and consult over the situation.

When the Colone found himself facing defeat in his fight with the old guard the President was asked to help him out. He did, and the assistance given him by the Federal brigade enabled the Colonel to put the old guard to rout and take control of the party machine. The men who are now worrying over the outlook were placed in charge of the campaign by Colonel Roosevelt.

So the President is again called on to pull the Colonel out of a hole. According to the dispatch alluded to in the beginning, one distinguished leader said to the President: "We couldn't win with the Colonel and it looks that, if we are defeated, it may be because of attacks on the Colonel,"

Which means that Roosevelt would have been defeated had he taken the nomination for Governor, and that popular objection to his being the boss instead of the candidate is so strong as to imperil Republican success. The Colonel is at once the issue and the incubus. He ran the convention and named the ticket. The candidates are regarded as his deputies.

He has licked the o d guard to a frazzle and eliminated its leaders from the State organization. Yet all is not going well. To please the radicals in the Democratic South and the insurgent V'est the Colonel has recanted the tariff plank of the New York platform much to the disg ist of the manufacturing interests. In his speeches he has hammered the corporations, particularly the railroad companies and Wall street, and has raised the financial interests of the State in active opposition to his ticket. The belief is general that he intends to be a radical candidate for President in 1912, hence the widespread desire to heat him now.

In Indiana the Colonel, in landing Beveridge, took occasion to pat Pinchot on the back and give Ballinger a kick. Ballinger is in President Taft's cabinet and Pinchot was dismissed from the government service by Taft or insubordination. Back from his swing around the circle Roosevilt again sends to Beverly a cry for help. It is an anomalous situation. The Colonel assumes to be the leader of the Republican party, but he would be unhorsed if the President did not assist him by having the Federal officials actively interfere in State politics. It seems that the official head of the nation, the strong man of the party, must act as stirrup-holder for the exile

But it is doubtful if the situation will be mended by the Federal power interfering further in the New York fight. In turning the scale in favor of the Colonel and against Vice-President Sherman and the old great a great breach was made in the party. That breach has never been hea ed, and the Colonel has made frest ones by his remarks about the tariff plank. Voters generally don't like too much Federal dictation in their home politics. In former elections they have resented this sort of dictation. They are likely to show still greater resentment this year if they get it into their heads that the Federal interference is intended to pave the way for a third term candidacy in 1912. One has only to read the leading New York papers to be convinced that such an impression is gaining ground. If the voters, ire unwilling to submit to the Colonel's rough riding it is not probable that they will be made more submissive by Federal dictation,

Roosevelt licked 'em to a frazzle in New York, but he confesses that the frazzle put the tariff plank in the platform.

Election day is only two weeks off, but there are few indications of popular ferment. Never before in the history of the State has so little interest beer manifested on the eve of election. Rival candidates for Governor who divote their entire time on the stump to personal recrimination and dominiciation of a railroad corporation do not present an inspiring spe tacle nor afford reason why the popular heart should be fired. .. few persons are filling the land with sound and fury, but the great mass of people are going about their business undisturbed and unexcited. The campaign began in livisteries and promises to end in hiccoughs. Nevertheless God reigns and the republic still lives.

Walter Wellman failed in his attempt to fly across the Atlantic, the true explorer. Fortunately no fatal result followed his failure, now compelled to go abroad to hear the finest of singing. but his rescue does not diminish the peril he assumed. He has displayed the spirit that has soived the mysteries which environ nan since the beginning.

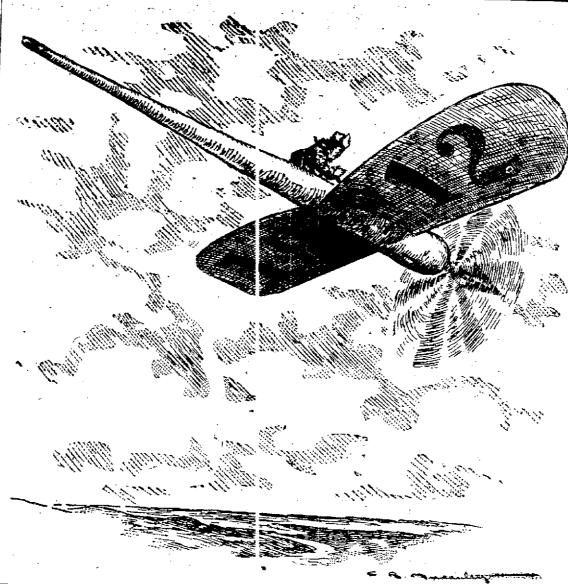

Speaking for Beveridge in Indiana, Colonel Roosevolt took pecasion to reiterate that the New York platform did not reflect his tariff views. Again the question arises: Why did the Colonel allow the New York convention to adopt a tariff plank which did not meet his approval? He dom nated the convention, licked his opponents to a frazzle, to use his own words, and appointed the committee on platform and resolutions. In the exercise of his power,

In Los Angeles an initial step has been taken toward consolidating the city and county governments. Los Angeles county cortains 3800 square miles of territory. The State of Connecticut cortains only 900 more. Los Anceles county is larger than Delaware can Rhode Island comlined. If a consolidation is feasible in Les celes, it is still more feasible in Alameda county. This county covers less than 7(%) square mucs of territory, and it is dotted all over with towns. By embracing the entire county in the proposed consolidation all the obstacles of forming a city and county government will disappear. It is certainly worth looking into and think

Next to the choice of Governor, the most important duty of the voters of California at the coming election is the selection of two Associate Justices of the Supreme Court. WASHINGTON. Oct 19.—More than four million cords of wood were used in the manufacture of wood pulp for paper making in the United States in 1809, as shown by the annual report on the industry issued yesterday by the census bureau. The cost of the transformation of the wood, of which there was 4,002,000 cords, was \$13,478,000. This was an interest of about \$50,000 cords of or the consumption of 1909, but of only about 19,000 over 1907.

The advancing cost of pulp wood of all species is brought out in the report. The otal consumption in 1909, through extending that of 1908 by less than 40,000 ords, cost over \$2,000,000 more.

Probably the most noteworthy detail n connection with the report is the decrease in the consumption of spruce in he manufacture of pulp.

A woman who is sick and suffering, and won't at least try a medicine which has the record of Lydia E. Pinkham's Vegetable Compound, is to blame for her own wretched

There are literally hundreds of thousands of women in the United States who have been benefited by this famous old remedy, which was produced from roots and herbs over thirty years ago by a woman to relieve woman's suffering. Read what these women say:

Camden, N. J.—"It is with pleasure that I send my testimonial for Lydia E. Pinkham's Vegetable Compound, hoping it may induce other suffering women to avail themselves of the benefit of this valuable remedy.

"I suffered from pains in my back and side, sick headaches, no appetite, was tired and nervous all the time, and so weak I could hardly stand. Lydia E. Pinkham's Vegetable Compound made me a well woman—and this valuable medicine shall always have my praise."—Mrs. W. P. Valentine, 902 Idncoln Ave., Camden, N. J.

Buffalo, N. Y.—"I am writing to tell you that I am pleased with your medicines. I had been sick for a long time with prolapsus. I heard about Lydia E. Pinkham's Vegetable Compound, and I have found that it is the right kind of medicine for me. I felt relieved after taking one bottle and I kept on taking it till new I am well and strong, and am able to do my work."—Mrs. Henry Kossow, 472 Genesee St., Buffalo, N. Y.

Since we guarantee that all testimonials which we publish are genuine, is it not fair to suppose that if Lydia E. Pinkham's Vegetable Compound had the virtue to help these women it will help any other woman who is suffering from the same trouble?

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit. If the slightest trouble appears which you do not understand, write to Mrs. Pinkham at Lynn, Mass., for her advice—it is free and always helpful.

Oaks Play Listless Ball and Graham's Men Have Little Trouble Running Score Up to Six Runs Against One for Locals

> By BERT LOWRY. SACRAMIENTO 6, OAKLAND 1.

SACRAMENTO, Oct. 18.—Cloom must be in the air down in dear old Cakland, for this day we must chronicle the sad tidings that our hopes and prides were handed just such another package that our hopes and prides were handed just such another package as was the Chicago Cubs by that crowd that our old college chum, Hughie Fullerton, dubbed a bunch of "fellows." But why worry about what happened to Frank Clance and his merry men? It's the Oaks that causes us to sit up of nights and reason out what their chances are for the pennant. It's a funny thing, this baseball proposition, and you never can tell where you are at until it's all over, and then you don't figure it as you should.

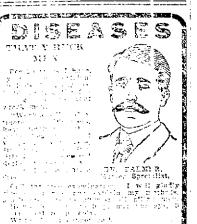

To be reasonable it was a surprise game the Oaks played today. The pepper and vinegar we so liked in our hopes and prides was like a mozen chunk of butter—not a bit of life there. Nobody got up on the coaching line and whooped her up unless it was Tyler Christian, and while Tyler tried a wfully hard somehow, he couldn't get the throttle wide open.

get the throatle wide open.

That's what made us surprised, too, for uning the practice stants Wolverton and als men made stops, pick-ups and throws hat were and dandles, and Bill flarking teamed 'end up with the speed of a canton bull. Graham's men were travel-worn and dred from that slegs it three ouble-heaters down south so they said out, bully deel what a game of fell that with did pit up. Jack Firzyerald had the take rathry out of his hands and his boots and curves were as and to find a was the merth pole. Sing, I was a laughter from the tap of the gong until he finish, and when it was all over it was me that was glad to beat back to ne hotel. How did it all happer? Well, ere's the tale.

### Sidelights of the Game

Harkins failed to crush 'em. Maybe we'll have better luck today. Finney umpired an excellent game. Senators hit the ball early and often Wolverton was really the only live wire. He played third nicely all the time and ried hard to win.

Hogan got two hits, Wolverton two and Pfy! one; the rest drew blanks.

The crowds at Sacramento won't make curtin. Graham et al. millionaires. Fact is, they wouldn't even pay for the balls used and the water the boys drank.

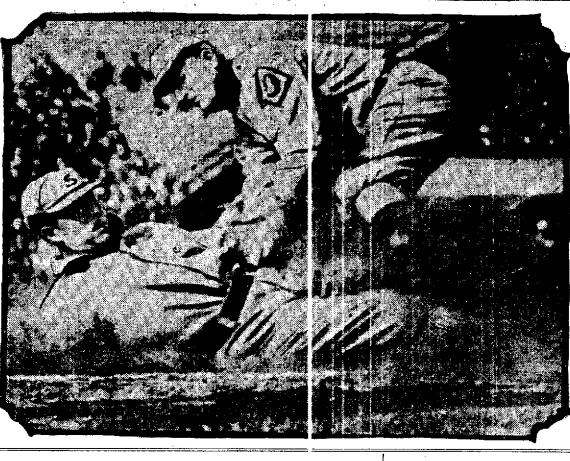

Wolverton grabbed a liner from Heiser's but in the seventh and doubled wardinan at third. It was a clever play. Fitzgerald was on Harkins' and Nelson's taff and fanned every time up but the ast, when he hit weakly to second base.

Thomas presented the Senators with a sun when he dropped Wares' throw of Heister's double in the fourth.

No use to weap and mourn, now the lamage is done, but, truly, it was a tough some to lose.

Durable Dane Wants More Money Than Was Originally Offered; Lew Powell Makes Good in New York

By EDDIE SMITH.

UR friend, "Daffodil" Wellman, who tried the damphool scheme of crossing the Atlantic with a bag of gas, must have had a rough time of it, but his experience appears no rougher than that of Promoter Jiri Griffin, who is trying to arrange a professional boxing contest for San Francisco, wherein Battling Neison is to be one of the opposing parties. First of all Jamsey had "One-Round" Hogan tied up to a match with the

rough and tough Battler. Hogan and his manager, Walter Frayne, professed all sorts of willingness to meet the Dane.

On the arrival of Nolson, however, Hogan changed his mind. Somebody whispered sweet somethings into the ear of Hogan and he wisely listened to the advice given him and refused to take the match on. It was a bad match for Hogan in the first place, and he should never have accepted it, but after once having Nelson come all the way to the coast and Griffin go to the expense he has he should have stuck. When Hogan made up his mind not to take the match Griffin switched his card to Autone LaGrave and the Butch-

ertown boy, glad to get the chance at Nelson, agreed to almost every condition Griffin wanted without a protest. condition Griffin wanted without a protest.

The youngster Imm-diately left for Shannon's at San Faf-el, there to put on the finishing touches of his condition. With this much done, Griffin thought his troubles ended. This was not the case, however for he is now having trouble with the Batter, who wants more money then was originally offered him. Griffin and Nelson are to have a meeting today at the Colma training quarters of the Pane, and Griffin hopes to fix matters up so that he can go ahead with his eard.

Until such time as Griffin and Nelson come to this agreement in the matter contest that he has had in Collifornia.

Lew Powell made his first start last evening at New York. Its opponent was Johnnie Marto, one of the best of the lightweight trial horses about the big city. At the end of ter rounds the contest was declared a draw by the great majority of those present, although from the dispatches this morning it would seem that if there was a decision to be given that if there was a decision to be given that if there was a decision to be given that if there was a decision to be given that if there was a decision to be given that if there was a decision to be given that if which we been Powell, which means, of courses that he had the shade. Powell is reported to have been slightly nervous at the start and a trifle too anxious, which would have a tendency to keep him from showing his best form. As is usual with all the battles that we have seen the San Francisco man in the first few rounds were his worst ones. Powell always was a sow beginner and this allowed Marto to snow well in these spells and was the cause for his getting a draw, as Powell had all the better of the latter end of the bout. NEW YORK, Oct. 18. — Thos Gibson says: This market is not on a sound foundation. Prices may move upward a little further but genitine advances are brought about by basic facts; not by inspiration or manipulation.

The stocks which are in the public eye are whooved up and two or three brues again make up the bulk of the trading. The stocks which are really and intrinsically in a strong position are given little attention. There are a number of such issues. It is a mixed market. I have already mentioned the Southern Bailway stocks, Western Union, American Beet Sugar and Consolidated Gas as particularly good opportunities. Virginia Chokiel, and
